

Woodland Avenue Recycling Centre

Earlier this month, the recycling site at Woodland Avenue was vandalised again. The litter bin was burned out and one of the glass recycling banks (re-sited last year after multiple banks had been burned out), was damaged by fire.

In the aftermath of the previous fire at the site, it was agreed that Sevenoaks District Council would replace the bins, but on the understanding that if there was any further vandalism, the remaining bins would be taken away and the site decommissioned. Sadly, that is the point at which we have now arrived.
